

Smart Home Control

A Control System is the interface between you and your home.

SYSTEMS

Whether you are thinking about a wired or wireless system, EASE has a systems to meet all of your requirements.

ENERGY MANAGEMENT

Track the amount of power that you are using and determine what system is using the power throughout your home.

Knowing where your power goes helps you save power and money

INTEGRATE WITH:

- Lighting
- Blinds
- Curtains
- Louvers
- Irrigation system
- Gates
- Heating system
- CCTV
- Alarm
- Audio / Video
- Projectors

A Control System allows you to communicate with your home. Any device in your home can be integrated, from lighting solutions to audio and video, window shades to garden sprinklers and even the garage door. The options are unlimited. If you can think of it chances are we can control it.

A good Control System Interface should be easy to use (for all family members), yet functional enough to complete all tasks required. It should also integrate seamlessly with your décor and be available for use throughout your home

In today's world, people are becoming more and more concerned with their power usage – not only in an effort to save money but also to reduce our negative effects on the environment. A key feature in any new smart home is the ability to monitor and track power consumption and adjust your usage to prevent, not only preventing nasty power bills but also protecting our environment as you do it!

Touch Panels and Tablets are becoming a popular user interface for systems. Screen design and colour can be customised to your individual preferences. Smart wall switches provide a functional, robust and visually appealing control option.

A control system doesn't have to be a whole home affair, it can be dedicated to a single room such as a home theatre, where you can control all aspects of the room such as heating, lighting, shutters as well as all the Audio and Video components from one location.

All these benefits aren't limited to the home either, we can offer the same services to office spaces, retail, and commercial sites.

At EASE we tailor our solutions specifically to you and your home, reflecting your needs. We offer a large range of equipment from many different manufacturers to ensure that you get the best solution.
